

I am not wishing to lose local Airl FM Radio Service in my area. I listen to Airl on 2 different translators in Portland Metro Area. This is an invaluable service provided to our community. I feel it is a very positive influence on Teens in our area. I recommend Teens to listen as a better/ safer experience. There are a lot of poor programming choices in the Portland Metro Area. Airl FM is doing their part in a non-threatening way through good wholesome music. No wierd radio personality where you have to flinch and change channels because an obscene comment goes on the air. What about first getting more censorship on radio before eliminating positive messages to our Teens. The future is our Teens. Airl FM radio service does an excellent job communicating through music to our Teens in a positive manner. Please consider leaving Airl FM radio service to continue. Thanks for your time.
